

REMARKS

In this broadening reissue application, claims 1-23, 28-34, and 40-71 are currently pending and are currently indicated as reciting allowable subject matter. The Examiner indicated that the prior response to the Office Action mailed September 29, 2004 was non-responsive for failing to submit a reissue declaration that has been executed to encompass all corrective action taken in the present Reissue Application. Enclosed is a copy of the Reissue Declaration executed on February 2, 2005 by the inventor Mr. Slemmer. Being executed on February 2, 2005, this newly executed declaration encompasses all corrective actions in the present application and thereby places all pending claims in condition for allowance. Accordingly, a Notice of Allowance is requested at the Examiner's earliest convenience. As previously indicated, the original patent will be surrendered upon allowance of the claims in this application.

If the Examiner has any questions or does not believe the present response places the application in condition for allowance, he is requested to contact the undersigned, Paul F. Rusyn, at (425) 455-5575 to promptly resolve this matter.

Respectfully submitted,

GRAYBEAL JACKSON HALEY LLP
